Staffing Company Announces Name Change to Unify Its Global Brand

Allegis Group changes the name of its IT division to TEKsystems

Wokingham, Berkshire – February 10, 2009 – Allegis Group, a leading international staffing company throughout the United Kingdom and Ireland, has officially changed the name of its IT applications and infrastructure staffing division to TEKsystems. The name change took effect on January 1 of this year to unite its European operations with the global TEKsystems brand.

TEKsystems, which is a member of Allegis Group, operates more than 90 non-franchised offices throughout the United States, Canada and Europe. TEKsystems has been recognized numerous times as the top provider in IT staffing solutions in the United States.

In January 2008, Allegis Group offices in the Netherlands and Germany also made the official name change to TEKsystems. TEKsystems' European offices will continue serving the staffing needs of local companies by providing contract, contract-to-hire and permanent IT staffing for skill sets within applications, infrastructure and communications.

The divisional name change is part of an international strategy to promote the company's high-quality reputation for IT staffing under the TEKsystems brand. The growing global economy and increasing need for international companies to work with a staffing partner that can provide staffing solutions across countries further supported the decision for the company's international offices to operate under a unified brand and company name.

"We are confident that the alignment of our global service lines with the TEKsystems brand will allow us to continue to deliver the highest levels of service to our customers and candidates," said Todd Mohr, Managing Director of TEKsystems for Europe.

TEKsystems was established in the United States as a staffing provider catering to the needs of the IT industry. Today TEKsystems, most well-known in the United States, continues to expand its presence and staffing services throughout Europe

About TEKsystems

TEKsystems is the leading technology staffing and services company and is known for its ability to help businesses implement technology. Ranked by Staffing Industry Analysts (SIA) as the largest IT staffing firm in the United States, TEKsystems has grown to become a multibillion dollar company by blending superior client service with an unrivaled ability to source and manage talent to precise specifications. TEKsystems' technical professional work force is located in more than 90 offices throughout North America and Europe. TEKsystems is an operating company of Allegis Group, the sixth largest staffing company worldwide. For more information, visit www.TEKsystems.com.
